Adobe Captivate (2019 release)

Unlock the future of smart eLearning design

The 2019 release of Adobe Captivate empowers you to create all kinds of fully-responsive eLearning content with a smart authoring tool. Embrace the future, as you effortlessly design modern immersive learning experiences using VR and 360° media assets. Record software simulations from scratch or add interactivity to existing PowerPoint slides and videos to create engaging eLearning that works across all devices.

Virtual Reality: Head-turning learning—Introducing 360° media support in the 2019 release of Adobe Captivate to help you deliver immersive learning experiences in VR that allow learners to navigate near real-life situations in a risk-free environment. Use VR to deliver experiences such as virtual tours, safety drills, product walk-throughs, first responder situations and more.

Responsive eLearning: Learning that moves, for learners who move—Use the newly enhanced Fluid Boxes to automatically author fully responsive eLearning content that works across all devices and browsers.

Advanced eLearning: Power when you need it—Create everything from best-in-class simulations to complex branching scenarios and configurable conditional logic. Write your own scripts to effectively control learning outcomes.

Video-based eLearning: Play to learn—Record your webcam and computer screen or bring in YouTube videos, add questions and interactive elements to deliver courses with increased learner retention.

PowerPoint to mLearning: From drab to fab - Easily convert your PowerPoint slides to interactive eLearning without any programming. Choose from 75,000+ free eLearning assets, characters, themes, quizzes and more, to deliver learning content that works on every device.

Invest in the best – Stay ahead of the curve—Over 80% of the Fortune 500 companies use Adobe Captivate as their trusted eLearning tool. Take advantage of flexible licensing and affordable pricing options that satisfy the requirements of everyone – from individuals to large enterprises.

KEY REASONS TO BUY ADOBE CAPTIVATE (2019 RELEASE) - TOP FEATURES

Multiscreen responsive eLearning authoring

Author as you always have—content automatically rearranges itself for the learner's device. Use the in-product device-specific preview to see how your project will appear. Publish as a single project and automatically deliver a fully responsive experience to your learners.

Immersive learning with VR experiences

Battle shrinking attention spans with immersive learning scenarios that your learners can experience in Virtual Reality using VR headsets. Now Adobe Captivate makes it possible for you to import 360° media assets and add hotspots, quizzes and other interactive elements to engage your learners with near real-life scenarios. Achieve learning use cases such as – “be in the shoes of”, “virtual tours”, “crises management”, “safety drills” and more.

Interactive videos

Liven up demos and training videos by making them interactive with the new Adobe Captivate. Create your own or bring in existing YouTube videos, add questions at specific points and conduct knowledge checks. Add bookmarks in the timeline to aid learner remediation. Customize feedback options for answers and interactions.

PowerPoint to mobile learning

Fast-forward to smart eLearning authoring by importing PowerPoint presentations to Adobe Captivate with just a few clicks. Transform static PowerPoint slides into responsive eLearning content that works seamlessly across all devices. Enhance the learning experience by adding interactive elements, assets and quizzes.

Smart video recording – Webcam + Screen

Create studio-quality HD videos as you simultaneously record your webcam and on-screen content with just a few clicks. Adjust the talking-head video position and add persona to your training content. Easily edit the videos in Adobe Captivate and add interactivity to multi-screen video-based learning.

Roundtripping with Adobe CC

Work with the world's best creative apps and roundtrip seamlessly with Adobe Photoshop, Adobe Illustrator, Adobe Audition and more in Adobe Creative Cloud. Preserve layers in imported Photoshop files, and edit or animate individual layers in Adobe Captivate for just the right effect. Edit and enhance audio files in Adobe Audition and then bring them back into Adobe Captivate.

MORE REASONS TO BUY ADOBE CAPTIVATE (2019 RELEASE)

Fluid Boxes 2.0

Explore the building blocks of Smart eLearning design with intelligent containers that use white space optimally. Objects placed in Fluid Boxes get aligned automatically so that learners always get fully responsive experience regardless of their device or browser. Use the pre-defined boxes in a responsive theme or draw your own. In the 2019 release of Adobe Captivate, Fluid Boxes get a productivity makeover - use the intuitive UI to control and customize your Fluid Boxes, view parent-child relations, distribute objects equally in a single click, define alignment properties in Static Fluid Boxes and more.

Live device preview

See exactly how your eLearning content will play out on your learners' VR devices. Use the live preview feature in Adobe Captivate to generate a QR code that you can scan using a mobile device and mirror the project real-time on your device browser. Once the initial connection is done, you can keep previewing all your work across projects as long as the Adobe Captivate session is active.

360° Learning experiences

Augment the learning landscape with 360° images and videos and convert them into interactive eLearning material with customizable overlay items such as information blurbs, audio content & quizzes. Make learners explore their surroundings and actively engage with the environment to enhance retention. Achieve complex learning use cases such as compliance protocols in action, virtual walkthroughs, realistic product demos and more.

Automatic chroma key effects

Transform your videos by making their backgrounds transparent and replace them in just a few clicks without the need for any green-screen technology. Personalize your video background by adding images or videos of places, scenarios or on-slide content. Get your project on the road with free media assets shipped with Adobe Captivate or choose your own.

CSV Question import template

Reduce authoring time and effort with the .csv Question Import template in Adobe Captivate, which helps you automatically create question slides in your Adobe Captivate Project. Include all question slide logic in the same .csv file such as marks, correct answers and feedback. You can also import format-compatible question banks from other authoring tools with just a few clicks.

Overlay Slides

Add a new dimension of interactivity to recorded or streaming videos with Overlay Slides in Adobe Captivate. Mark any slide as an Overlay Slide and insert it anywhere on your video timeline allowing you to add additional interactive layers for improved learner engagement.

Automatic device preview

Reduce authoring time and effort with the .csv Question Import template in Adobe Captivate, which helps you automatically create question slides in your Adobe Captivate Project. Include all question slide logic in the same .csv file such as marks, correct answers and feedback. You can also import format-compatible question banks from other authoring tools with just a few clicks.

Asset store

Work smarter—unlock value with in-product access to Adobe Stock and our library of 75,000+ free eLearning assets. Choose from a universe of royalty-free images, people cutouts, interactions, themes, games, scenarios, and much more.
