

Global Relay Search for Outlook

ACCESS ARCHIVED MESSAGES WITHIN MICROSOFT OUTLOOK

Quickly find any historical message from within Outlook

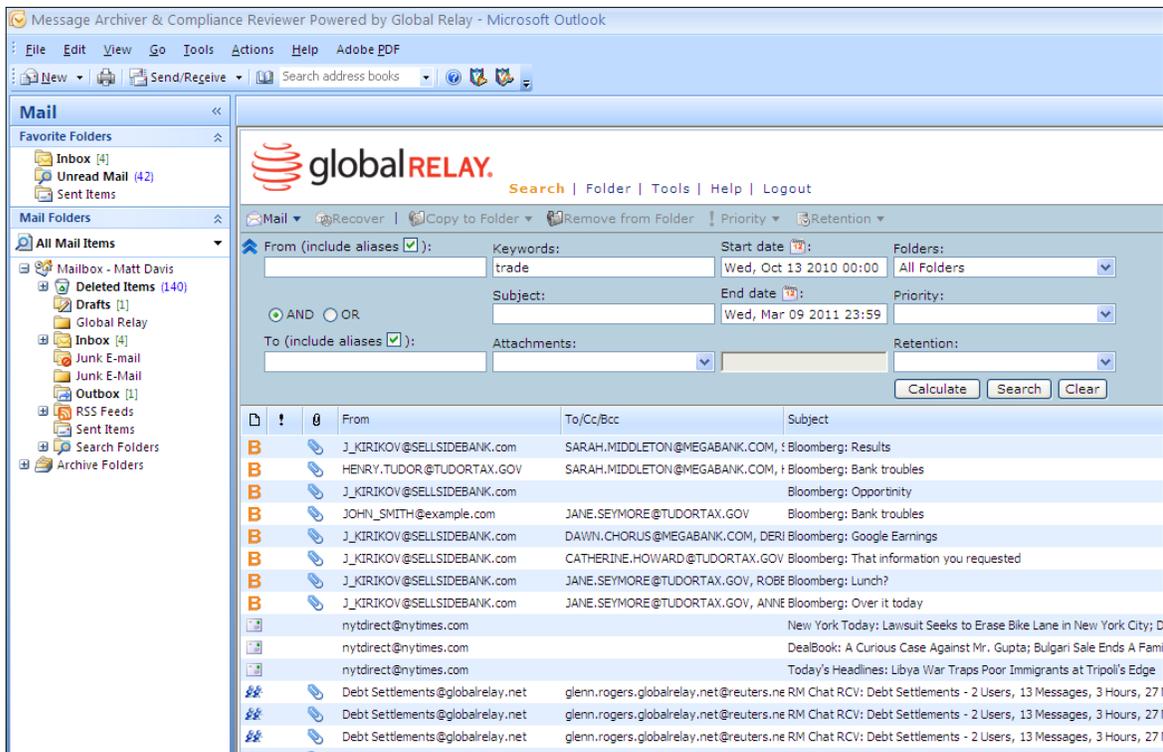

Global Relay Search for Microsoft Outlook is a convenient plug-in that allows users to quickly and easily find and retrieve their historical messages within their everyday email application.

This easy-to-use productivity tool adds an additional window in Microsoft Outlook that lets users enter search criteria, view results, open messages, copy messages to folders, and restore any message to the Inbox — all in one familiar place.

Additional Benefits

Retrieve any type of message. With Global Relay Search for Outlook, users get a single convenient access point to search and retrieve archived messages of any type — including email, instant messages, BlackBerry & Android text messages and call logs, Bloomberg, Thomson Reuters, Social Media and more.

Benefit from productivity gains. Since users can easily search their own Archive, time-consuming manual searches for lost messages are no longer a concern. Users can instantly restore any type of message to their inbox, even if that message has been deleted — alleviating a burden for IT departments.

The screenshot displays the Microsoft Outlook interface with the Global Relay Search plugin. The search window is titled "Message Archiver & Compliance Reviewer Powered by Global Relay - Microsoft Outlook". It features a search bar and various filters. The search criteria are: From (include aliases checked), Keywords: trade, Start date: Wed, Oct 13 2010 00:00, End date: Wed, Mar 09 2011 23:59, and Subject. The search results are displayed in a table with columns for From, To/Cc/Bcc, and Subject.
